ISRA ILYAS

About Me

Motivated and innovative Computer Science student with a solid grasp of web technologies and a proven ability to deliver high-quality projects. Experienced in building responsive web applications using HTML, CSS, Bootstrap/Tailwind and Javascript. Demonstrated ability to learn quickly and adapt to new challenges. Aspiring to start a career in front-end development and contribute to a creative team.

Projects

OLX Homepage Clone

Built a detailed and responsive clone of the OLX home page, demonstrating proficiency in web design and front-end development. This project replicates the look and feel of the OLX platform, providing a clean and user-friendly interface.

Personal Portfolio Website

Crafted a dynamic personal portfolio website using HTML, CSS, and Bootstrap. This project showcases my web development skills and highlights my key projects, professional journey, and design expertise. The website is designed for responsive viewing, ensuring an optimal user experience across all devices.
